Abstract

This is the abstract.

It consists of two paragraphs.

Key words: citations, forecasting

1. Introduction

A sample graph is shown in Figure 1.

*Corresponding Author

Email addresses: yudejian62@126.com (Dejian Yu), Rob.Hyndman@monash.edu (Rob J Hyndman)

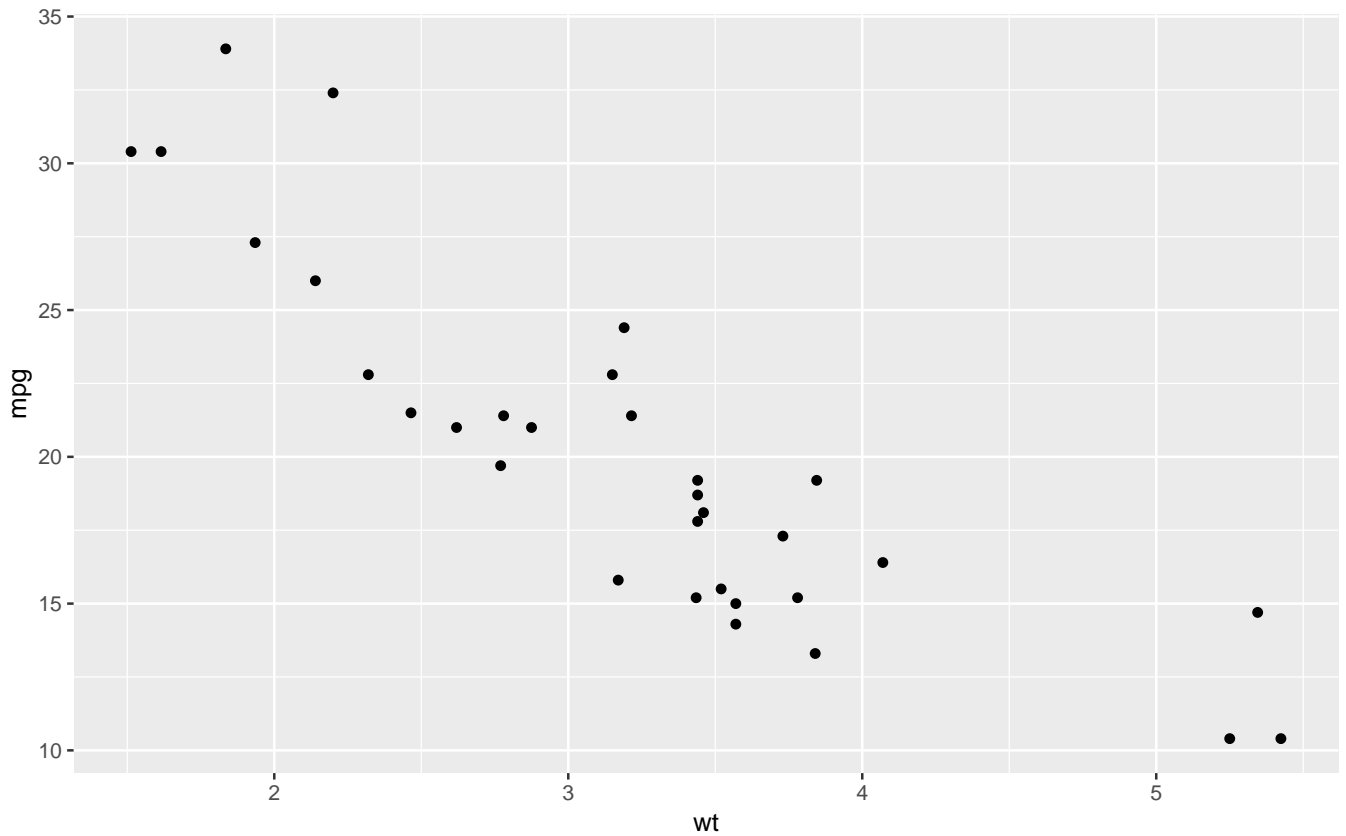

Figure 1: *The ubiquitous mtcars data used yet again.*

This is the end of Section 1.

2. Literature review

Here are two sample references: Feynman and Vernon Jr. (1963) corresponds to `citet` and (Dirac 1953) corresponds to `citep`.
